HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling invented by H. E. Hoagland we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used
It fits any wheel built or now used and is therefore easily and speedily separated. It prevents Cutts Pole from being easily lifted from the resting point which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant and is convenient safe and secure
It is easy to change this style of coupling any buggy or other vehicle now in use and with small expense. Where some of the couplers on to use this new invention are driven and recommend its use in all cases. We consider it far superior to the Brewster Pole Horse fork as ordered the last in use

DATES TO MAY 29

The Presbyterian Assemblies Basis of Reunion

New York May 27 In the old school Assembly to-day a report of which it had sought to defeat was adopted. It declares that no basis of reunion can be satisfactory which does not recognize the validity of the ordinances of the churches the same standing in the united body as now and says all imperfect organized churches must become thoroughly Presbyterian within five years. The boundaries of Presbyteries are to be adjusted by a united general assembly. The official record of the two branches is to be preserved but not as a rule of precedent, and not to be authority unless approved by both bodies, or established by the united body unless it affects the right of property or corporate rights. The two assemblies are to consolidate as far as possible. The seceder committees on boards are to be consolidated impartially. The Board of Publication of the United Church is to revise all editions and exclude sectional reflection. Theological seminaries now under the Assembly's control may be transferred to one or more adjacent synods. The report of reunion was then submitted and discussed. The basis of reunion was accepted this evening by the new school but with seven dissenting voices in the old school assembly.

New York May 28—The Presbyterian General Assembly has adopted a paper urging the Presbyteries of Florida to lay before the Central Presbytery of Philadelphia a statement of the facts of the seizure of the Jacksonville church by a Northern minister and ask redress. A plan for the relief of the families of deceased clergymen was referred to a committee to report at the next assembly.

A joint prayer meeting of the two Presbyterian Assemblies was held this morning in the New School Assembly. A preamble and resolutions looking to the appointment of a joint committee of the two Assemblies to prepare and publish a reply to the Pope's Apostolic letter of September 12, 1868 also to ascertain and state the reasons why his claim cannot be recognized and regarded as an expression of the sentiment of the Presbyterian Church of the United States was adopted. A committee from the Old School Assembly was introduced, they announced the adoption of the report on reunion. A resolution was adopted to attend the decoration of the graves of the Union dead buried in Kings County Monday next.

Yesterday the committee on freedmen presented their fourth annual report. Receipts are $ 7 167 number of churches 72 communicants one 3 634 Sabbath schools 69 scholars 4 723 over 100 pupils have attendance at the day schools.

Terrible Storm at Wheeling

Wheeling May 28—About three o'clock this afternoon the most terrific rain and hail storm ever known in the vicinity passed over this city. It lasted full twenty minutes. Hail stones as large as eggs and some even larger than men's fists fell like rain. The water rushed down Monroe street with fury carrying away horse barrels and bales. Market and Main streets were flooded to the depth of a foot and the sewers being obstructed by water flowed into cellars and warehouses doing much damage. Southeast windows from the suspension bridge to the creek were broken and many awnings completely riddled. The number of panes broken is estimated at 30,000. Vineyards on the islands and hills surrounding the city were greatly injured. The iron roof of the Department was blown off. Many accidents are reported but no lives were lost. The belt of the storm did not extend more than a mile above this city. Lower down they escaped the storm entirely. At half past seven o'clock this evening rain and hail again commenced to fall with great fury. The loss is seriously estimated at from $20 000 to $50 000.

Reconstruction in Mississippi

Washington May 28—Major Walford of Mississippi had an interview with the President to-day, stating that if the disfranchising clause in the test oath and the militia clause shall be submitted separately, the constitution will unquestionably be adopted.

The President expressed his satisfaction at this state of affairs in Mississippi and said no election will be ordered till the election in Virginia and that the objectionable clauses shall be submitted separately.

The Central Pacific Railroad

The Central Pacific Railroad Company in accordance with the decision of the President and Cabinet, to-day delivered four million of their first mortgage bonds with Secretary Boutwell as security for the completion and equipment as a first class road. They were thereupon paid the full amount of Government bonds to which they were entitled by law. The subject of the second bonds required from the United States will be considered by the President in a few days when the like security will be given.

Nova Scotia.

Halifax May 27—In the House of Assembly yesterday a preamble was introduced by Murray of Pictou which speaks of a forcible change of the Constitution of Nova Scotia with or the consent of the people and in opposition to their wishes. It says even an inquiry into the grievances has been refused and they now occupy the position of a degraded people and that the union has resulted in financial disaster and oppression that their principal commercial trade has been and always will be naturally with the United States.

Therefore be it resolved that the Imperial Parliament has been imposed on by false representations and that the free people of the British Islands will not permit in keeping this heretofore loyal colony in half union.

Resolved That an humble address be presented to the Queen asking a restoration of our beloved constitution or to be absolved from allegiance to the British throne that it may enable us a free people to adopt the political institutions we may deem so conducive to our happiness and prosperity. Also that be considered that an association for that purpose which Murray declined.

Monday next is set apart for the consideration of the resolution.

Dr. Livingstone—The London Times publishes the following from Rev. Josiah J. Murphy [illegible]

Speculation.—The latest [illegible] from the Hope which has just arrived in the Thames states that Dr. Livingstone [illegible] Lincoln Lake Bangweolo and proceeded to Lincoln Lake Tanganyika. Nothing is known to state, certainly contradicting which I possess. I have also Kirk at Zanzibar dated the 8th and at that time no news whatever [illegible] great traveler had been received for Judging from his own letters of 1867, and also from the intelligence Arab traders, I was last year lost to the world. He was probably living [illegible] the Lake Tanganyika, and that at the Lualaba he would meet with provisions and letters, which were sent there. But this view can no longer be entertained. Kirk informs me that many traders arrived from the very region in question, but nothing of him.

In this dilemma I may [illegible] hypothetical explanation. If Livingstone at the southern end of the Lake Tanganyika himself that its waters were not above the sea, as was [illegible] by Burton, he would pass nearly due east that the Lualaba flow northward into the much higher lakes.

In this case he would abandon the route, to which it was now proved he waters of the Tanganyika flowing into Nyanza of Baker. Having also proved that the Tanganyika was fed by rivers from the south and the east, it would appear under these circumstances that the Nile fresh water (500 miles in length) was the way to the west, and he would then discover or rivers which issue on the west Africa. Under this supposition he would be heard of from one of the Western Portuguese or even from the region on the [illegible]

If this view be entertained, we may expected to hear of Livingstone for some as the distance he would have to west and the region unknown.

Again, this hypothesis explains the silence whatever respecting him has been at Zanzibar, inasmuch as he has been through a vast country, the inhabitants of [illegible] have no communication with the [illegible] coast.

While however I correct the statements which has just appeared, I am to understand that I shall [illegible] hope that my disappointed friends from Rome and studying Sanscrit—from Africa on their return at which long absence, he has [illegible] traverse of Southern Africa.
